

How IATA EasyPay Will Help Your Travel Business Thrive

With NewGen ISS, IATA is introducing IATA EasyPay, a new voluntary 'pay as you go' payment option for travel agents which offers more choice and flexibility when paying for tickets through the BSP.

Here are **five ways** in which IATA EasyPay can benefit your business.

1 Offers more choice:

With IATA EasyPay, you'll have an additional payment option, allowing you to benefit from a simple alternative to BSP Cash and Card.

2 Reduces the financial security amount required by IATA:

IATA EasyPay amounts are secure and can help agents lower the amount of financial security required by IATA.

3 Enables the GoLite accreditation model:

IATA EasyPay provides agents with an easier route to accreditation as it allows them to transact with airlines without a BSP cash facility.

4 Helps to ensure business continuity:

IATA EasyPay allows agents to continue ticketing if they reach their threshold for BSP Cash sales, or Remittance Holding Capacity. This helps ensure business continuity and provides agents with added assurance that safer selling can continue.

5 Simplified reconciliation:

IATA EasyPay makes it easy for agents to reconcile transactions, simplifying cash management.
